

6th SUSTAINABLE INVESTOR SUMMIT

SIS 6 2023 | Germany | Austria | Switzerland

IC Institutional
Capital
Forum

FNG
Co-host 2023

**Sustainable
Investor
Summit**

D-A-CH 2023

Welcome to ICF Institutional Capital Forum

ICF Institutional Capital Forum specialises in organising exclusive private markets events in the DACH region.

The ICF Sustainable Investor Summit (ICF SIS) is a strong voice in the DACH region advancing sustainable, responsible and impact investing across all asset classes. Our mission is to rapidly shift investment practices towards sustainability, focusing on long-term investment and the generation of positive social and environmental impacts.

The aim of ICF SIS is also to provide a communication platform for corporate leaders and stakeholders: Many corporate leaders understand that businesses have a key role to play in tackling urgent challenges, and so are reducing their climate change footprint.

The ICF team works with the conference advisory board members, sponsors and industry leaders to construct an agenda that is highly relevant to all those who attend. As such, our programmes are designed and held to strictest of standards.

We believe that Finance is a force for good – join us and support the transition to a sustainable future.

The ICF team

SIS 6 Advisory board

The Advisory board is an esteemed group of industry thought leaders assembled by ICF to shape the conference programmes of the SIS 6 forums by collaboratively identifying topics and speakers that will facilitate engaging and informative discussions.

Associates

Andreas Knörzer
Managing Partner
Knörzer Consulting

Volker Weber
Chairman of the Board
FNG - Forum Nachhaltige
Geldanlagen

SIS 6: Planned themes

SIS 6 will highlight current developments, investment opportunities & risks across **all asset classes** and **relevant geographic markets**.

The SIS programme will also cover the **latest topics** in sustainable and impact investment, sustainable strategy and reporting, regulation, data provision & impact measurement, ESG and climate resilience and innovation financing.

SIS 6 will again try to capture the **different views** of the various stakeholders and decision-makers on the relevant sustainability and impact topics (global view, investors' view, board view) within the framework of specific panel discussions.

SIS 6: Special topics

SIS 6 will additionally focus on special subjects such as:

- Sustainable blue economy: Why investors should take a deep dive into the blue economy
- Natural capital, sustainable agriculture and biodiversity: Natural capital solutions to achieve net-zero emissions and global food security
- Diversity, equity & inclusion: Successfully create diverse and functional organisations with DEI and thereby strengthen innovation, growth and competitiveness in companies
- Corporate citizenship: How businesses and organisations contribute to a positive development of the society
- ESG and impact issues in the context of the special requirements of faith-based and value-oriented investors

SIS 6: Burning issues

In our 6th year of learning, sharing and networking around ESG and impact investing we would like to discuss also answers to the most pressing questions:

ESG over time: the avoidance of negative consequences has long since been replaced by the demand for real impact: Shouldn't the world look much better by now? What's the bottom line for the DACH region?

Ukraine war and global uncertainties:

- At the beginning of the Ukraine war, it looked as if the obvious negative dependence on fossil fuels would spur the energy transition. Have concrete actions fulfilled these expectations?
- The negative economic consequences of the war lead to social crises in many areas. Can we expect that the traditional focus on the environment (the E of ESG) is evolving into an increasing prioritisation of financially material social issues (the S of ESG)?
- As the crisis progresses, there are also tendencies to return to conservative, supposedly more predictable strategies. Are we still moving in the right direction?

The S in ESG:

- Is this just a focus in times of social crisis or not a significant investment theme in its own right?
- What is the status of the European Union's social taxonomy?

SIS 6: Locations and dates

Germany Forum | 16-17 May 2023
Steigenberger Frankfurter Hof

Conference day 1 (16 May)
09:00 - 18:00 Conference
18:30 - 21:30 Dinner

Conference day 2 (17 May)
09:30 - 13:00 Conference
13:00 - 14:00 Farewell with snack lunch

Austria Forum | 10-11 May 2023
Marriott Hotel Vienna

Conference day 1 (10 May)
09:00 - 18:00 Conference
18:30 - 21:30 Dinner

Conference day 2 (11 May)
09:30 - 13:00 Conference
13:00 - 14:00 Farewell with snack lunch

Swiss Forum | 15 March 2023
SIX ConventionPoint Zurich

Conference day (15 March)
09:00 - 18:00 Conference
18:00 - 21:00 Apero

The concept of SIS

Networking time

Plenty of networking time during coffee breaks, extended lunch time, Dinner / Apero at the end of the first conference day

Panel discussions

Roundtable with 3 to max 4 experts and a moderator, scheduled to last 40 minutes

Keynotes

Expert lecture with approx. 20 minutes of speaking time

Fireside chats

Roundtable with one or two experts and a moderator, scheduled to last 20 minutes

The goals of SIS: Overcome hurdles for sustainable and impact investing

Improve deal flow and present investment opportunities at scale, connect DACH investors with world's leading sustainable and impact managers

Strengthen competence and exchange know-how within the financial services industry

Develop better methods and data to evaluate non-financial outcomes, share the latest research and principles from leading associations and academia

Support sustainability and impact innovation practices, bring best-in-class practices to and from the DACH market

Keep up the momentum, create a community of managers and investors whose values and return requirements align, build cohesion

SIS in social media

We promote the conferences, specific panels and all our speakers on our website and social media channels. In addition to the media campaigns on our ICF channels, we provide all our speakers with posting material for their own social media channels such as Twitter or LinkedIn.
